What was the last mode of transport used?

You can choose any day in the month to ask students to put their hands up if they rode, walked, skated, scootered, caught public transport or were driven part way on the journey to school on that day.

At Ride2School, we want to keep track of schools progress and can reward for effort or assist where barriers exist. Once you record the results of your HandsUp! results you can enter them yourself online or send to us via email, fax or mail and we'll enter them for you.

Class	Journey by			
	Bike, Skate or scoot	Walk	Private car	Public transport

RIDE2 SCHOOL

How to make data collection easier:

- Have a Ride2School student representative record the data
- Have them return the form to you
- Add up and enter the totals into your HandsUp! account
